*"Your inner intelligence is the ultimate & supreme genius, it mirrors the wisdom of the cosmos"*

Deepak Chopra

The question arises -- how does one access the wisdom of this 'inner intelligence' and then apply it to everyday living?

This workshop is about just that -- your 'inner intelligence', your 'spirit', your 'vital life force energy' and the power that lies dormant within your 'soul'. Welcome.

The mind has been a fine steward of evolution and will continue to be so. Yet, if you find yourself unable to problem solve and progress in a desired direction, or stressed, overwhelmed, frustrated, depressed and caught in recurring negative patterns, there seems little the mind is able to do. It is time then to garner **your inner spiritual intelligence**, arising from the soul.

To do so, it is important to learn about the energy field of consciousness -- especially those created by our thoughts, beliefs and emotions. We live and operate within this field. Spiritual intelligence teaches us to distinguish those that support our balance and growth.

Ongoing research in the field of human consciousness, quantum mechanics, energy psychology and spiritual healing is giving us a deeper understanding of the spiritual laws.

More importantly, pioneers who are working with energy are amazed by the power arising out of spiritual intelligence, once we learn to align with it.

There are **Four Distinct Parts** to this workshop.

- Understanding the energy dynamics from a spiritual perspective (the laws of polarity, energy exchange, energy accumulation and so forth).
- Recognizing the blocks that appear, sometimes recurring, and the source of our inner resistance (always rooted in a belief that has run its course).
- Applying simple techniques to shift our consciousness to more harmonious vibrations. (Energy tools that address body, mind and soul).
- Experiencing the collective energy of the group in supporting the releasing process of deeply embedded blocks. (This part is most valuable).
