Spiritual Response Therapy (SRT)

Basic and Advanced Online Classes (Weekend)

July 12 – 14 & July 26 – 28, 2019

Spiritual Response Therapy (SRT) is a system to clear the soul's path by researching the soul records to release discordant energies accumulated over lifetimes. SRT provides an exacting, powerful and accurate way of changing the landscape of our inner and outer lives, enabling us to live more freely and fully.

There are four main aspects of learning Spiritual Response Therapy

1. Understanding the levels and layers of spiritual reality and the expansion process of the universal consciousness.
2. Establishing and maintaining the connections with the High Self and higher levels of consciousness and clearing the pathway of the soul's journey.
3. Developing the art of asking. SRT works on the simple principle 'Ask and You Shall Receive'. Identifying what to ask for with precision allows for outcomes that can sustain.
4. Learning to integrate with the New Paradigm at Radiant Love.

A meticulous step by step protocol has been developed by Robert Detzler based on a set of charts that he channeled over the past 30 years. SRT is one of the most comprehensive and powerful energy healing modalities known to us today.

Classes are taught by Malabika Shaw
SRA Certified SRT Teacher since 2006

SRT Basic and Advanced Combined Course Curriculum:

To be certified as an advanced practitioner of Spiritual Response Therapy (SRT), these two levels of courses are a requirement. In each of the two levels – Basic SRT and Advanced SRT, we will cover everything in the curriculum developed by the Spiritual Response Association. Advanced and Basic SRA Certificates are given at the end of the course.

Online classes are kept small for greater effectiveness; hence spots are made available on priority to those who wish to take the combined course at both levels required for the practice of SRT for self and others.

In this class you will learn:

- Dowsing with a pendulum
- The art of asking questions
- Tuning into your higher guidance

Course Methodology:

1. The curriculum for each part is divided into three hour modules.
2. Each module is covered via online video teleconferencing. This allows for instruction, online discussions, power point presentations, Q and As etc.
3. Exercises and readings are assigned between class modules.
4. Supervised practice of the SRT techniques is an integral part of the course.
5. Follow up conferences are offered as needed up to a month after the classes to ensure that the students have a level of comfort in using the SRT system.
6. You will be asked to submit assignments recording practical work you do on your own, prior to being certified.

IT Systems requirement:

You need a computer with high speed internet capabilities, with a camera and microphone. We will be working on the Zoom video conferencing platform. This is without any additional cost to you. It is very simple to operate. **Once you register, I will set up a time with first time users prior to the class to ensure that your computer is compatible with Zoom and you are comfortable with the technology.**

You will be able to see and interact with all the class participants.

Pendulum for Dowsing:

SRT depends on dowsing with a pendulum for higher level communication. You will need one. If you are accustomed to dowsing, you have an advantage. If dowsing is new to you, the best option is to find a local source or buy a pendulum on Amazon. It is not necessary to have anything very elaborate. For best results choose one with a slight point. That will make it easier to use.
